

How to Use these Vocabulary Bookmarks

Feel free to share this resource, but do not share in any way that would bring you or someone else income. (No monetization or boosted posts, no reposting on other sites. Just share my link!)

Print out as many of these as you like, on white or colored paper.

Cut along the solid line in the middle of the page to get two bookmarks.

Fold the bookmarks along the dotted lines so that the words are on the front, and the definitions are on the back.
